## **Twizted Eric Jones**

Retails at £30 will accept £20

Eric's take on twisting the aces. Four cards are used, one at a time the cards turn face up in progressively more visual, and impressive ways. The routine is modular in the sense that Eric provides several ways to do this effect surrounded, and each revelation can be interchanged with any other to suit the style of the performer.

**Eclipse** - The least demanding, yet most visual effect on the DVD! Two cards are shown front and back and without any cover at all, one of the cards visibly turns face down, and then instantly turns face up again while educating the spectator about eclipses.

**Twizted Grasshopper** - WORTH THE PRICE OF THE DVD - Eric collaborates with underground magician Rahat to bring you their version of Paul Harris' Grasshopper effect. A FREELY chosen card is openly placed between two face up court cards and set aside. Two other court cards are shown front and back and set down. The selected card VISIBLY vanishes from between the two sandwich cards and is found between the second set of cards.

You only need to be able to control a card on the top. Can't do a pass or sidesteal? No problem. Eric teaches a new move called the Passless Pass that will change the magicians control cards.

Function 9 is a collection of nine effects from the mind of Calen Morelli. These 2 discs contain effects that are practical and hard hitting using everything from playing cards to rubber bands to chewing gum. Each effect is taught in detail covering over 3 hours on the 2 dvds.

VGH(a+b) = (a) A selected card visually jumps from the deck to your hands, ending in between the spectators hands! (b) An in hands and extremely visual version of Paul Harris' grasshopper effect.

PEN IN BOTTLE = A pen visually jumps inside a full bottle of water.

TRANSPORT = You hold a cell phone and the spectator holds a cell phone. A rubber band is wrapped around the cell phone in your hand. The band visually vanishes from the phone in your hands and reappears on the phone they have been holding the entire time!

=(bonus) = A borrowed ring instantly links onto a few rubber bands worn on your wrist then it melts off just as impossibly.

TRANSPORT(impromptu) = All the great things about transport but impromptu.

SUSPENDED = You hang one band on another. Then in an instant half of the supporting band vanishes for just a moment leaving the band hanging in the air! Pure visual goodness!

LOADED(1.0) = If you perform card under box, you will love this powerful routine!

LOADED(2.0) = A card to hat with a kicker ending that will blow your audience away!

FRICTION = An insanely visual rubber band thru bill routine! Impromptu and easy to learn.

SUGAR FREE = A piece of gum visually jumps from the pack to your mouth, instantly!

TRANSIT = An ordinary rubber band is wrapped around your finger and visually jumps from finger to finger. Calen is back with two new handling on this super visual effect.

## **Rattled Dan Hauss**

Retails £26 approx will accept £15

First there was Flow...Dan Hauss' ingenious best seller using an innocent bottle of water.

This time he's using just the cap...

You unscrew the plain white cap off your water bottle and put a coin under the bottle cap. You take a step back from the table so there's no way you can get near the cap or the coin.

Your friend now shakes the cap and definitely HEARS and FEELS the coin RATTLE inside.

And without you touching ANYTHING she shakes the cap again...and the RATTLING suddenly STOPS! Just stunning empty SILENCE.

She looks under the cap...the coin has VANISHED! The empty cap can be closely examined.

No coin, no rattle sound, nothing. Just an innocent plastic bottle cap and you've been standing away from everything the entire time!

You can then place a glass under the table..."CLINK"... and the coin drops through the table into the glass! OR...the vanished coin appears under a second empty cap that's been held by someone else! (Dan's ingenious gimmick does the work for you).

You Have Options!

Entire rattle/vanish action is done by the spectator. *You never touch the cap!* Perform surrounded.

Carry the cap in your pocket, or unscrew it from a water bottle.

Resets in ten seconds (The Rattled re-set technology is a joy to behold). *No switches! Very Easy to do. No palming required* Includes Rattled Coin In Bottle and Rattled Ring on Finger

*Options to perform with signed coins and small objects.*

Includes 2 Fully Gimmicked Caps

A SECOND gimmicked cap is included so you can explore all the glorious two-cap RATTLED combinations.

DAN HAUSS' RATTLED: 100% gimmicked. 100% examinable

Designed to Astonish. Built to Last.
